The West Midlands has an enviable track record of delivering high quality bus services through successful partnership working.

The challenge now is to build on this, become more innovative and attract new customers. Along with heavy rail and Metro, Centro are now looking to introduce the Bus Rapid Transport 'Sprint' services as an integral part of the future transport network. The presentation will outline Centro's vision of the future for world class bus services and how this can be made a reality.

The presentation will be made by **Stephen Rhodes** (Director of Operations) and **Pete Bond** (Head of Network Services) from **Centro**.

Please join us for what promises to be an interesting presentation on the vision for buses and bus rapid transit in the West Midlands.
