18:00 for prompt start at 18:30

Local Transport Connectivity to High Speed Rail Stations in a City and Out of Town Environment

Event Location:

WSP Group, One Queens Drive, Birmingham B5 4PJ

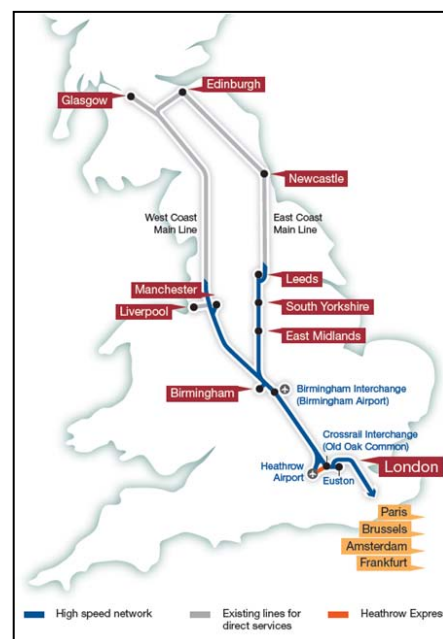

With High Speed 2 (HS2) currently in the limelight as the "Golden Project" we need to consider the inward / onward journey connections to stations the line will serve and how they will affect / impact on local transport provision, along with the plans that we collectively make towards that.

Here in the West Midlands we will have both a City Centre and out of town station to consider and with it possible dissimilar needs. The scheme has the potential to have significant impacts on the economy of the region, particularly the Birmingham area and affect a number of sectors including retail, housing, employment and leisure.

TPS West Midlands in partnership with Centro and WSP invite you to attend this year's HS2 debate which will provide a focus on local connectivity to the scheme. We again have a comprehensive panel lined up for this year's event with **Alex Burrows** (Head of Strategy, Centro), **Ann Osola** (Head of Growth and Transportation, Birmingham City Council) and **Dav Bansal** (Director, Glenn Howells Architects). The event will be chaired by **Martin Dyer** Associate Director, WSP.

This event is open to all. Entry to the event is free for TPS members and £5 for non-members.

If anybody would like to pre-submit questions for discussion please feel free to email them to the address below by Tuesday 12th June.

Refreshments will be available from 18:00

This event is free for TPS members and £5 for non-members

Please confirm your attendance via email as we expect demand to be high and places are strictly limited

Register your place by emailing amrit.mudhar@fluor.com
