

The wheels on the bike go round and round...

Presentations followed by facilitated discussion

Hosted by Leicester City Council and University of Leicester

University of Leicester, Charles Wilson Building, 4th Floor, Garendon Suite

Wednesday 27th October 2010, arrival refreshments from 4.45pm

We are delighted to have brought together some of the UK's leading cycling advisors and advocates for a thought provoking discussion on the topic of '**where next for cycling investment**'. The event will review the successes and failures to date, and will look forward to future opportunities and the challenges that funding constraints will bring.

Chair: Jon Parker (Chair East Midlands Branch, TPS)

17:05	Lynn Sloman (Transport for Quality of Life / Cycling England)	Cycling Demonstration Towns – Key Findings
17:20	Stan Werbinski/Mark Smith (Derby City Council)	Derby CDT - Lessons Learnt
17:35	Questions / discussion	
17:45	Andy Salkeld (Leicester City Council)	Leicester City - Investing in Cycling
18:00	Jo Ward (Sustrans)	Ucycle Project Nottingham - Early Findings
18:15	Open discussion	
18:45	Wrap up and close	

We have allowed for plenty of discussion time to ensure we can get to the heart of some of the more challenging aspects associated with the promotion of cycling. Given the broad interest in this subject, members of the IHT, ICE, CILT and ACT TravelWise are also most welcome to attend free of charge – we look forward to welcoming you.

TPS, CIHT, ICE, CILT & ACT TravelWise MEMBERS FREE, NON-MEMBERS £5

Please register early as demand for places will be high - priority will be given to TPS members.

Those intending to attend should phone or email Jon Parker to book a place

Tel. 0115 988 6904

Email. parker@itpworld.net

The meeting will take place on the Travel Day of the Big Green Week, during which the University will be asking staff and students to commit to our vision of a 60% carbon reduction target by 2020 in the week of events and initiatives that aim to encourage greener behaviours on and off campus in an enjoyable, informative and interactive way.

Why not come early and enjoy the Hard Rain exhibition at the centre of Campus and a cup of fair-trade coffee in the Big Green Café whilst you take in the spectacular huge carbon cube that demonstrates just how much a tonne of carbon is?
