5.30pm**

Transport Planning Professional (TPP) Workshop

Steven McCloy (ARUP)

at: Arup , First Floor, Central Square, Forth Street, Newcastle upon Tyne

The Transport Planning Professional (TPP) Qualification was launched last year and is designed to provide professional recognition for Transport Planners at a level similar to that of Chartered Engineer. The qualification is awarded by IHT and TPS.

Steven McCloy, Senior Transport Planner at Arup, was one of the first candidates to be awarded the TPP Qualification in June 2008. At the workshop Steven will discuss his experience in compiling a Portfolio of Evidence and undertaking the Professional Review. It is intended to be an informal discussion for future candidates to ask questions and gain support from other transport professionals.

Places are limited so please register by emailing northeast@tps.org.uk
